

BARATH M

Full Stack Developer

+91 9361355908 — barath1324m@gmail.com — Chennai

[GitHub](#) — [LinkedIn](#) — [Portfolio](#)

Professional Summary

Motivated Information Technology graduate with hands-on experience in Full Stack Web Development using React.js, Java, Spring Boot, HTML, CSS, JavaScript, REST APIs, PostgreSQL, and MySQL. Skilled in developing responsive web applications, backend services, CRUD systems, and microservice-based architectures. Passionate about solving real-world problems through clean code, scalable software design, and modern development practices. Strong understanding of Git, API integration, database management, and software engineering fundamentals.

Technical Skills

Languages: Java, JavaScript, Python, SQL

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Responsive Design

Backend: Spring Boot, REST APIs, Microservices

Databases: PostgreSQL, MySQL

Tools: Git, GitHub, VS Code, IntelliJ IDEA, Postman, Maven

Deployment: Netlify, Render, Vercel

Concepts: Object-Oriented Programming, API Integration, CRUD Operations, Authentication, Database Design, Version Control

Projects

MK Training Center Website (Full Stack)

[Live](#) — [GitHub](#)

- Developed a responsive full-stack training institute website using HTML, CSS, JavaScript, Spring Boot, and PostgreSQL.
- Built a student registration system with RESTful API integration and CRUD functionality.
- Designed an admin dashboard for managing student records and registrations.
- Deployed the application on Netlify and managed source code using Git and GitHub.

LuxeVibe E-Commerce Frontend

[Live](#) — [GitHub](#)

- Developed a responsive e-commerce frontend using HTML, CSS, JavaScript, and React.
- Designed product listings, shopping cart UI, and intuitive navigation components.
- Optimized performance and ensured cross-device compatibility with responsive layouts.
- Deployed the project on Netlify and maintained version control using GitHub.

Diabetic Nephropathy Prediction Using TabNet

- Developed a healthcare prediction model using Python and the TabNet deep learning framework.
- Processed medical features including HbA1c, Creatinine, Albumin, BMI, and Blood Pressure.
- Applied SHAP for model interpretability and feature importance analysis.
- Evaluated performance using AUC-ROC, F1-Score, and other classification metrics.

Internship

Full Stack Developer Intern

MK Trainings

- Built frontend and backend modules using HTML, CSS, JavaScript, Java, and Spring Boot.
- Developed RESTful APIs and integrated them with relational databases.
- Worked with GitHub for version control and collaborative development.
- Participated in testing, debugging, and deployment activities.

Education

Bachelor of Technology (B.Tech) in Information Technology

Nov 2022 – Mar 2026

Alpha College of Engineering, Chennai
Affiliated with Anna University

Certifications

AI-Powered Java Full Stack Development

SLA Institute

Mar 2026 – Aug 2026

- Completed training in Java, Spring Boot, React.js, HTML, CSS, JavaScript, and MySQL.
- Developed full-stack web applications with RESTful APIs and CRUD operations.
- Gained hands-on experience with Git, GitHub, and modern software development practices.

Cambridge English ESOL – Business English (CEFR A2)

Cambridge Assessment English

Dec 2023

- Earned CEFR A2 certification demonstrating proficiency in English communication skills.
- Strengthened reading, writing, listening, and speaking abilities for professional environments.

Achievements

- Developed multiple full-stack web applications using React.js and Spring Boot.
- Built responsive interfaces with modern frontend development practices.
- Designed REST APIs and integrated frontend applications with backend services.
- Experienced with GitHub-based version control and cloud deployment platforms.
- Continuously improving problem-solving and software engineering skills through real-world projects.
